5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non- appropriated) funds. These requirements apply to grants and cooperative agreements EXCEEDING \$100,000 in total costs.

The undersigned (authorized official signing for the applicant organization) certifies, to the best of his or her knowledge and belief, that

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

If any personal property is so provided, this assurance shall obligate the Applicant for the period during which it retains ownership or possession of the property. The most recent HIV Surveillance Report will be published on or before October 1 of the federal fiscal year for which a state is applying for a grant is used to determine the states and jurisdictions that will be required to set-aside 5 percent of their respective SABG allotments to establish one or more projects to provide early intervention services for regarding the human immunodeficiency virus (EIS/HIV) at the sites at which individuals are receiving SUD treatment services. In FY 2012, SAMHSA developed and disseminated a policy change applicable to the EIS/HIV which provided any state that was a "designated state" in any of the three years prior to the year for which a state is applying for SABG funds with the flexibility to obligate and expend SABG funds for EIS/HIV even though the state's AIDS case rate does not meet the AIDS case rate threshold for the fiscal year involved for which a state is applying for SABG funds. Therefore, any state with an AIDS case rate below 10 or more such cases per 100,000 that meets the criteria described in the 2012 policy guidance would be allowed to obligate and expend SABG funds for EIS/HIV if they chose to do so.

22. State Behavioral Health Planning/Advisory Council and Input on the Mental Health/Substance Abuse Block Grant Application - Required MHBG

Narrative Question

Each state is required to establish and maintain a state Mental Health Planning/Advisory Council for adults with SMI or children with SED. To meet the needs of states that are integrating services supported by MHBG and SABG, SAMHSA is recommending that states expand their Mental Health Advisory Council to include substance misuse prevention, SUD treatment, and recovery representation, referred to here as a Behavioral Health Advisory/Planning Council (BHPC). SAMHSA encourages states to expand their required Council's comprehensive approach by designing and implementing regularly scheduled collaborations with an existing substance misuse prevention, SUD treatment, and recovery advisory council to ensure that the council reviews issues and services for persons with, or at risk, for substance misuse and SUDs. To assist with implementing a BHPC, SAMHSA has created **Best Practices for State Behavioral Health Planning Councils: The Road to Planning Council Integration**.⁷²

Planning Councils are required by statute to review state plans and implementation reports; and submit any recommended modifications to the state. Planning councils monitor, review, and evaluate, not less than once each year, the allocation and adequacy of mental health services within the state. They also serve as an advocate for individuals with behavioral health problems. SAMHSA requests that any recommendations for modifications to the application or comments to the implementation report that were received from the Planning Council be submitted to SAMHSA, regardless of whether the state has accepted the recommendations. The documentation, preferably a letter signed by the Chair of the Planning Council, should state that the Planning Council reviewed the application and implementation report and should be transmitted as attachments by the state.

⁷²<http://beta.samhsa.gov/grants/block-grants/resources>

Please respond to the following items:

1. How was the Council involved in the development and review of the state plan and report? Attach supporting documentation (e.g. meeting minutes, letters of support, etc...)
 - a) What mechanism does the state use to plan and implement substance misuse prevention, SUD treatment and recovery services?

Missouri has two separate planning councils: State Advisory Council on Alcohol and Drug Abuse (SAC-ADA) and a State Advisory Council on Comprehensive Psychiatric Services (SAC-CPS). Missouri's planning council for alcohol and drug (ADA) programs is comprised of 25 members including service providers, consumers (recipients of services or family members of recipients), and other interested citizens. At least one-half of the members shall be consumers, and one member shall represent veterans and military affairs. No more than one-fourth of the members shall be vendors or members of boards of directors, employees or officers of vendors, or spouses of any of the above mentioned, if such vendors received more than fifteen hundred dollars (\$1,500) per year under contract with the Department of Mental Health. Members of boards of directors of not-for-profit corporations shall not be considered vendors. Each member shall be appointed for an initial term of one, two, or three years to allow for a rotation of one-third of the members each year. Further, each appointed member may be re-appointed to no more than one additional three-year term. Each member serves until a successor has been appointed. The functions and duties of the planning council for ADA shall be to:

 - 1) Promote meetings and programs for the discussion of reducing the debilitating effects of alcohol or drug use and disseminate information in cooperation with any other department, agency or entity on the prevention, evaluation, care, treatment and rehabilitation for persons affected by alcohol or drug use;
 - 2) Study and review current prevention, evaluation, care, treatment and rehabilitation technologies and recommend appropriate preparation, training, retraining and distribution of manpower and its resources in the provision of services to persons affected by alcohol or drug use through private and public residential facilities, day programs and other specialized services;
 - 3) Recommend what specific methods, means and procedures should be adopted to improve and upgrade the alcohol and drug use service delivery system for citizens of this state;
 - 4) Participate in developing and disseminating criteria and standards to qualify alcohol and drug use residential facilities, day programs and other specialized services in this state for funding by the department (RSMO 631.020).

Most members of the ADA planning council have leadership roles as managers, advocates or volunteers in the substance use service delivery system. Current representation includes consumers; treatment, recovery support, and prevention service providers; Department of Corrections; Department of Health and Senior Services; and the Veteran's Administration.
 - b) Has the Council successfully integrated substance misuse prevention and treatment or co-occurring disorder issues, concerns, and activities into i ☒ Yes ☐ No
2. Is the membership representative of the service area population (e.g. ethnic, cultural, linguistics, rural, suburban, urban, older adults, families of young children)? ☒ Yes ☐ No

3. Please indicate the duties and responsibilities of the Council, including how it gathers meaningful input from people in recovery, families, and other important stakeholders, and how it has advocated for individuals with SMI or SED.

As specified in state statute, the functions and duties of the SAC-ADA are to:

- 1) Promote meetings and programs for the discussion of reducing the debilitating effects of alcohol or drug use and disseminate information in cooperation with any other department, agency or entity on the prevention, evaluation, care, treatment and rehabilitation for persons affected by alcohol or drug use;
- 2) Study and review current prevention, evaluation, care, treatment and rehabilitation technologies and recommend appropriate preparation, training, retraining and distribution of manpower and its resources in the provision of services to persons affected by alcohol or drug use through private and public residential facilities, day programs and other specialized services;
- 3) Recommend what specific methods, means and procedures should be adopted to improve and upgrade the alcohol and drug use service delivery system for citizens of this state;
- 4) Participate in developing and disseminating criteria and standards to qualify alcohol and drug use residential facilities, day programs and other specialized services in this state for funding by the department (RSMO 631.020).

The SAC-ADA provides a diverse perspective on the prevention and treatment of substance use. SAC-ADA meetings include updates, presentations, and discussions from the Division of Behavioral Health (DBH) Director and/or his representative and section heads from prevention, treatment, and fiscal units. In addition, the SAC-ADA receives regular briefings and feedback from the Missouri Recovery Network, which is a statewide organization advocating for addiction treatment and recovery support. Membership includes individuals in recovery, family members, friends, allies, and other supportive people. The SAC-ADA also receives regular briefings from the Missouri Substance Abuse Professional Credentialing Board on matters pertaining to professional credentialing and workforce development. The SAC-ADA meets in joint sessions with the SAC-CPS as needed to coordinate recommendations on behavioral health services, including recommendations for Missouri's FY 2018-2019 Behavioral Health Assessment and Plan.

The SAC-CPS has the following duties:

- 1) Review State plans and submit any recommended modifications to DBH;
- 2) Serve as an advocate for adults with serious mental illness, children with a severe emotional disturbance, and other individuals with mental illnesses or emotional problems;
- 3) Monitor, review, and evaluate, not less than once each year, the allocation and adequacy of mental health services within the State.

The SAC-CPS serves as an advocate for adults with serious mental illness, children with severe emotional disturbance, and other individuals with mental illness or emotional problems. SAC-CPS advocacy activities include promoting the Consumer/Family/Youth Conference; Peer Specialist training and certification; and coordinating Hands across Missouri – an annual, consumer-run event sponsored by the SAC-CPS, the Missouri Mental Health Foundation, and local organizations. The SAC-CPS continues to support Peer Specialist training and certification. Through this process, consumers can learn to identify their strengths and personal resources, learn to make independent choices, and take a proactive role in their treatment.

Real Voices Real Choices is the annual consumer conference to educate, inform, and empower individuals in treatment and/or recovery and their families. This conference developed from Missouri's Mental Health Transformation Grant, a SAMHSA-funded grant that ended in 2011. The 2018 Conference was held in August at Lake of the Ozarks. The SAC-CPS has a subcommittee who plans and coordinates this conference.

Both the SAC-ADA and the SAC-CPS promote the Missouri's Mental Health Champions – an effort to recognize the accomplishments of individuals whose lives have been challenged by mental illness, substance use disorders, and/or developmental disabilities. The 2018 Mental Health Champion awards ceremony and banquet was held in June at the Capitol Plaza Hotel in Jefferson City.

⁷³There are strict state Council membership guidelines. States must demonstrate: (1) the involvement of people in recovery and their family members; (2) the ratio of parents of children with SED to other Council members is sufficient to provide adequate representation of that constituency in deliberations on the Council; and (3) no less than 50 percent of the members of the Council are individuals who are not state employees or providers of mental health services.

Rockville, MO 20850

Dear Grants Management Officer:

The State Advisory Councils for the Missouri Department of Mental Health, Division of Behavioral Health (DBH), (formerly the Division of Comprehensive Psychiatric Services and the Division of Alcohol and Drug Abuse) have reviewed the state's FY2018 – 2019 Behavioral Health Block Grant State Plan – which combines plans for both mental health and substance use disorders. Both State Advisory Councils are committed to working with the DBH to create a well-integrated system of care that implements evidence-based practices and incorporates a focus on recovery. In December 2016, the State Advisory Councils held a joint meeting to assist DBH in developing the Behavioral Health Block Grant State Plan. Both Councils have reviewed and approve of Missouri's final State Plan, written under our guidance.

We will continue to work with the DBH in monitoring the implementation of the State Plan. We appreciate our involvement in the Block Grant planning development and would like to express appreciation to SAMHSA for making these funds available.

Sincerely,

Indicate how the Planning Council was involved in the review of the application. Did the Planning Council make any recommendations to modify the application?

A joint meeting of the Alcohol and Drug Abuse State Advisory Council (ADA-SAC) and the Comprehensive Psychiatric Services State Advisory Council (CPS-SAC) was held to review a draft of Missouri's Behavioral Health State Plan. Recommendations from the SAC's were incorporated into a second draft which was distributed to SAC members for a second review.

23. Syringe Services (SSP)

Narrative Question:

The Substance Abuse Prevention and Treatment Block Grant (SABG) restriction^{1,2} on the use of federal funds for programs distributing sterile needles or syringes (referred to as syringe services programs (SSP)) was modified by the **Consolidated Appropriations Act**, 2016 (P.L. 114-113) signed by President Obama on December 18, 2015³.

Section 520. Notwithstanding any other provisions of this Act, no funds appropriated in this Act shall be used to purchase sterile needles or syringes for the hypodermic injection of any illegal drug: Provided, that such limitation does not apply to the use of funds for elements of a program other than making such purchases if the relevant State or local health department, in consultation with the Centers for Disease Control and Prevention, determines that the State or local jurisdiction, as applicable, is experiencing, or is at risk for, a significant increase in hepatitis infections or an HIV outbreak due to injection drug use, and such program is operating in accordance with State and local law.

A state experiencing, or at risk for, a significant increase in hepatitis infections or an HIV outbreak due to injection drug use, (as determined by CDC), may propose to use SABG to fund elements of a SSP other than to purchase sterile needles or syringes. However, directing FY 2016 SABG funds to SSPs will require a modification of the 2016-2017 SABG Behavioral Assessment and Plan (Plan). States interested in directing SABG funds to SSPs must provide the information requested below and receive approval on the modification from the State Project Officer. Please note that the term used in the SABG statute and regulation, *intravenous drug user* (IVDU) is being replaced for the purposes of this discussion by the term now used by the federal government, *persons who inject drugs* (PWID).

States may consider making SABG funds available to either one or more entities to establish elements of a SSP or to establish a relationship with an existing SSP. States should keep in mind the related PWID SABG authorizing legislation and implementing regulation requirements when modifying the Plan, specifically, requirements to provide outreach to PWID, SUD treatment and recovery services for PWID, and to routinely collaborate with other healthcare providers, which may include HIV/STD clinics, public health providers, emergency departments, and mental health centers⁴. SAMHSA funds cannot be supplanted, in other words, used to fund an existing SSP so that state or other non-federal funds can then be used for another program.

In the first half of calendar year 2016 the federal government released three guidance documents regarding SSPs⁵: These documents can be found on the Hiv.gov website: <https://www.hiv.gov/federal-response/policies-issues/syringe-services-programs> ,

1. **Department of Health and Human Services Implementation Guidance to Support Certain Components of Syringe Services Programs, 2016** from The US Department of Health and Human Services, Office of HIV/AIDS and Infectious Disease Policy <https://www.hiv.gov/sites/default/files/hhs-ssp-guidance.pdf> ,
2. **Centers for Disease Control and Prevention (CDC) Program Guidance for Implementing Certain Components of Syringe Services Programs, 2016** The Centers for Disease Control and Prevention, National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention, Division of Hepatitis Prevention <http://www.cdc.gov/hiv/pdf/risk/cdc-hiv-syringe-exchange-services.pdf>,
3. **The Substance Abuse and Mental Health Services Administration (SAMHSA)-specific Guidance for States Requesting Use of Substance Abuse Prevention and Treatment Block Grant Funds to Implement SSPs** <http://www.samhsa.gov/sites/default/files/grants/ssp-guidance-state-block-grants.pdf> ,

Please refer to the guidance documents above when requesting a modification to the state's 2016-2017 Behavioral Health Assessment and Plan.

Please follow the steps listed below to modify the Plan:

- Request a Determination of Need from the CDC
- Modify the 2016-2017 Plan to expend FFY 2016 and/or FFY 2017* funds and support an existing SSP or establish a new SSP
- Include proposed protocols, timeline for implementation, and overall budget

- Submit planned expenditures and agency information on **Table A** listed below
- Obtain State Project Officer Approval
- Collect **all** SSP information on **Table B** listed below to be reported in the FFY 2019 SABG report due December 1, 2018

End Notes

¹ Section 1923 (b) of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. ? 300x-23(b)) and 45 CFR ? 96.126(e) requires entities that receive SABG funds to provide substance use disorder (SUD) treatment services to PWID to also conduct outreach activities to encourage such persons to undergo SUD treatment. Any state or jurisdiction that plans to re-obligate FY 2016 SABG funds previously made available such entities for the purposes of providing substance use disorder treatment services to PWID and outreach to such persons may submit an amendment to its plan to SAMHSA for the purpose of incorporating elements of a SSP in one or more such entities insofar as the plan amendment is applicable to the FY 2016 SABG funds **only** and is consistent with guidance issued by SAMHSA.

²Section 1931(a)(1)(F) of Title XIX, Part B, Subpart II of the Public Health Service (PHS) Act (42 U.S.C.? 300x-31(a)(1)(F)) and 45 CFR ? 96.135(a)(6) explicitly prohibits the use of SABG funds to provide persons who inject drugs (PWID) with hypodermic needles or syringes so that such persons may inject illegal drugs unless the Surgeon General of the United States determines that a demonstration needle exchange program would be effective in reducing injection drug use and the risk of HIV transmission to others. On February 23, 2011, the Secretary of the U.S. Department of Health and Human Services published a notice in the Federal Register (76 FR 10038) indicating that the Surgeon General of the United States had made a determination that syringe services programs, when part of a comprehensive HIV prevention strategy, play a critical role in preventing HIV among PWID, facilitate entry into SUD treatment and primary care, and do not increase the illicit use of drugs.

³ Division H Departments of Labor, Health and Human Services and Education and Related Agencies, Title V General Provisions, Section 520 of the Consolidated Appropriations Act, 2016 (P.L. 114- 113)

⁴ Section 1924(a) of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. ? 300x-24(a)) and 45 CFR ? 96.127 requires entities that receives SABG funds to routinely make available, directly or through other public or nonprofit private entities, tuberculosis services as described in section 1924(b)(2) of the PHS Act to each person receiving SUD treatment and recovery services.

Section 1924(b) of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. ? 300x-24(b)) and 45 CFR 96.128 requires ?designated states? as defined in Section 1924(b)(2) of the PHS Act to set- aside SABG funds to carry out 1 or more projects to make available early intervention services for HIV as defined in section 1924(b)(7)(B) at the sites at which persons are receiving SUD treatment and recovery services.

Section 1928(a) of Title XXI, Part B, Subpart II of the PHS Act (42 U.S.C. 300x-28(c)) and 45 CFR 96.132(c) requires states to ensure that substance abuse prevention and SUD treatment and recovery services providers coordinate such services with the provision of other services including, but not limited to, health services.

⁵**Department of Health and Human Services Implementation Guidance to Support Certain Components of Syringe Services Programs, 2016** describes a SSP as a comprehensive prevention program for PWID that includes the provision of sterile needles, syringes and other drug preparation equipment and disposal services, and some or all of the following services:

- Comprehensive HIV risk reduction counseling related to sexual and injection and/or prescription drug misuse;
- HIV, viral hepatitis, sexually transmitted diseases (STD), and tuberculosis (TB) screening;
- Provision of naloxone (Narcan?) to reverse opiate overdoses;
- Referral and linkage to HIV, viral hepatitis, STD, and TB prevention care and treatment services;
- Referral and linkage to hepatitis A virus and hepatitis B virus vaccinations; and
- Referral to SUD treatment and recovery services, primary medical care and mental health services.

Centers for Disease Control and Prevention (CDC) Program Guidance for Implementing Certain Components of Syringe Services Programs, 2016 includes a description of the elements of a SSP that can be supported with federal funds.

- Personnel (e.g., program staff, as well as staff for planning, monitoring, evaluation, and quality assurance);
- Supplies, exclusive of needles/syringes and devices solely used in the preparation of substances for illicit drug injection, e.g., cookers;

- Syringe disposal services (e.g., contract or other arrangement for disposal of bio- hazardous material);

- Navigation services to ensure linkage to HIV and viral hepatitis prevention, treatment and care services, including antiretroviral therapy for HCV and HIV, pre-exposure prophylaxis, post-exposure prophylaxis, prevention of mother to child transmission and partner services; HAV and HBV vaccination, substance use disorder treatment, recovery support services and medical and mental health services;
- Provision of naloxone to reverse opioid overdoses
- Educational materials, including information about safer injection practices, overdose prevention and reversing a opioid overdose with naloxone, HIV and viral hepatitis prevention, treatment and care services, and mental health and substance use disorder treatment including medication-assisted treatment and recovery support services;
